NOTICE OF DISAPPROVAL OF
REGULATORY ACTION

Government Code Section 11349.3

OAL File No. 2010-1101-07 S

The Board of Chiropractic Examiners proposed to adopt sections 360, 363.1 and 370, amend and renumber sections 355, 355.1, 356, 356.5, 357, 358, 359 and 360, and repeal section 355.2 of title 16 of the California Code of Regulations pertaining to continuing education and license renewal

OAL disapproves this regulatory action for the following reason(s):
The disapproved regulation(s) fail(s) to comply with the clarity and necessity standards of Government Code section 11349.1 and the initial statement of reasons was inadequate; proposed section 371 does not meet the requirements for incorporation by reference; a change to existing section 356.5 was not made available for comment; the statement of mailing notice was defective; the declaration of completion and closure was unsigned; and the regulation text submitted for review and filing with the Secretary of State did not show changes to the existing California Code of Regulations in underline and strikeout and did not contain authority and reference citations.

Within seven (7) calendar days of the date of this notice, the Office of Administrative Law will send the adopting agency a written decision detailing the reason(s) for disapproval of this regulatory filing. Pursuant to Government Code section 11349.4, the adopting agency may resubmit the regulation(s) within 120 calendar days of receipt of that written decision.

CE Changes for OAL Approval

The following proposed changes to the CE language are necessary for approval of the Continuing Education regulatory package by the Office of Administrative Law. The language below reflects changes to specific regulations as they appeared in the Order of Adoption rather than the way they currently appear in the California Code of Regulations. Single strikeout and single underline reflect the changes that were made to the proposed language based on the 45-day and 15-day comment period. Proposed new changes to the regulation are shown in bold and double underline. Proposed new deletions to the regulation are shown in double strikethrough.
